## ABOUT ME

### FRONT END DEVELOPER

I have grown a **strong passion** for Front End Development which led me to a **good understanding** of its underlying technologies, which leads me to love **designing and building** modern websites. As a developer who loves nothing more than work with **building amazing websites** and **solving technical problems**.

## EXPERIENCE

### SIBIC | FRONT END DEVELOPER

Apr 2023 – Present | Kolhapur, IN  
IMS Software

- As a front end react developer, my role involves **designing and developing user interfaces** for the IMS (Incubation Management System) Software.
- I use my **expertise in react** to create interactive components that enhance the user experience.
- **Collaborating** with UI/UX designers and back end developers, I ensure **seamless integration** of front end and back end functionalities.
- My goal is to deliver a **visually appealing and user-friendly interface** that meets the needs of our clients and enhances the overall usability of the IMS software.
- Utilized: JavaScript, React.Js, MaterialUI, GitHub.

## PROJECTS

### FLIPKART CLONE | E-COMMERCE WEBSITE

React Js | Redux Toolkit | HTML5 | CSS

- Designed and developed a **fully functional e-commerce platform** inspired by Flipkart.
- Creating essential features and functionalities to provide users.
- **Implemented search and filter functionality** to easily find exactly products.
- Ensured the platform is accessible and usable across various devices by implementing **responsive design** principles.

### WEATHER APP | WEB APPLICATION

React Js | Fetch API | HTML5 | CSS

- Designed and developed weather application to provide real-time weather information.
- Creating essential features and functionalities to provide users.
- Integrated with a weather API to **fetch current weather conditions** and other relevant data.
- Developed interactive and informative weather visualizations, **including temperature and wind speed**.

### FACEBOOK LOGIN AND SIGNUP PAGE | WEB APPLICATION

React Js | HTML5 | CSS

- Created a visually accurate and **user-friendly interface**, closely resembling the Facebook login and signup pages.
- Implemented responsive design principles for a consistent experience across various devices.
- Implemented **validation checks** to ensure **data accuracy** during the signup process.
